

### Annexure C-5(5.2.3)

#### **Rain Water Harvesting**

Rain water harvesting is the most economical and best way to use rain water. Our College has rain water harvesting system. Rain water is collected from the roof through collection pipes which are routed to rain water harvesting Tank. The harvested rain water is used for the plants of College garden and potted plants. During water scarcity this water is also used in toilets.

**Rain Water Harvesting Tank**

**Use of Harvested Rain Water for Garden Plants**

**Use of Harvested Rain Water for potted Plants**
