3. Thoughts shared by the Chemistry Students about mentoring by teachers:

(18)

I am a student of 3rd year after completion of 1st year I take drop because I cleared the D.El.Ed entrance exam and after completing the D.El.Ed I was in dilemma whether I am able to join from 2nd year or not. Many people misguide me that you should take admission in 1st year. Also I was in fear that how I compile with my studies and how I manage. I faced many difficulty in admission process. But when I met my chemistry professor he helped me in admission process and guide me not to worry about studies. He encourage me time to time and his guidance helped me a lot to overcome the fear from exam. And now I cleared my Bsc. 2nd year exams and studying in 3rd year. I really thankful to have such teachers in my life.

Shikha Sharma
Bsc. 3rd year.

Our chemistry Sir is truly an outstanding teacher, known not only for his deep knowledge of the subject but also for his supportive and approachable nature. His guidance has been a constant source of motivation, and his dedication to our success is truly inspiring. Always patient

(17)

I have a lot of fear like stage fear, or even if I know the answer, I was afraid that if my answer is wrong, everyone laugh that's the reason why I could neither give the right answer nor the wrong one.

I used to think that today I will work on myself and overcome my fear, but like everyday, I used to postpone everything.

But once I was very impressed by the words of my professor. He said that if we keep thinking about what people think about us we will not be able to ~~do~~ do anything in life. This is the time when you can end your fear. So, do not worry about what people will say. Even if you say something wrong, what will happen, I will correct you. Those words gives me different vision to see the life. I analyze myself and work on myself.

Arushi Sharma
BSc IIIrd

Before coming to the college I use to overthink a lot. But when I started to coming to college my overthinking increases more. But in my first year of college my professor found about my trouble about overthinking. So he suggest me about meditation. And he suggests me to take part in engaging enjoyable activities like found about your hobbies and take part in it, spend time

time with you loved me and participate in activities that bring you joy. This can help you to distract you from overthinking and provide a positive focus. It motivates me a lot and in the end last year of my degree I confidently say that I overcome my problem of overthinking.

Sudiksha Sharma.
B.Sc. IIIrd year.

Before I did not know what I wanted to do in my life or what I wanted to become. That time I was thinking that I would complete my B.Sc first and then think about what to do. I also completed my first year in this course. But when I was in second year, Mr. Suryakant Sir asked our class that do you know what you want to do after B.Sc. That time I was thinking that if Sir asked me this question what would I say? Then Sir told us that first of all you should know why goals are important in our life, after that you should know what is your goal and how will you get it. These words stuck in my mind and I started thinking about what I want to do and why I want to do it. Now I am in third year and I know what I want to do and how to do it. Now I am more motivated and confident than before. I am very grateful to Sir and the college. Thank you for encouraging and improving us.

Ritika
B.Sc IIIrd year.

Our Chemistry HOD Dr. Suryakant Sir,
always inspired us to study & focus
on better approach. Always admire
him as he is so dedicated towards
his work. Always disciplined and does
his job so well. If I become a
teacher in future I want to inculcate
his qualities in me. At least I will try
to. Chemistry feels so interesting when
we have teachers like him. By: Mukti Sharma
Msc 4th Sem.

Dear Ripah Sir,
Thank you for being such a kind, supportive
and amazing teacher. Your classes were always
fun, and I learned so much from you.
You made college life better just by being
you. I will always remember your smile,
your patience, and the way you made
learning feel easy.
You will always be one of my favorite
teachers!
With Love and Respect,
Name - Kalpna Kumari
Class - Msc 4th Sem.

and encouraging behaviour is steadily motivating. He makes learning enjoyable. I am truly grateful for his experience. We are truly grateful for his ^{his} ~~not~~ encouragement in life.

Harshit Gautam

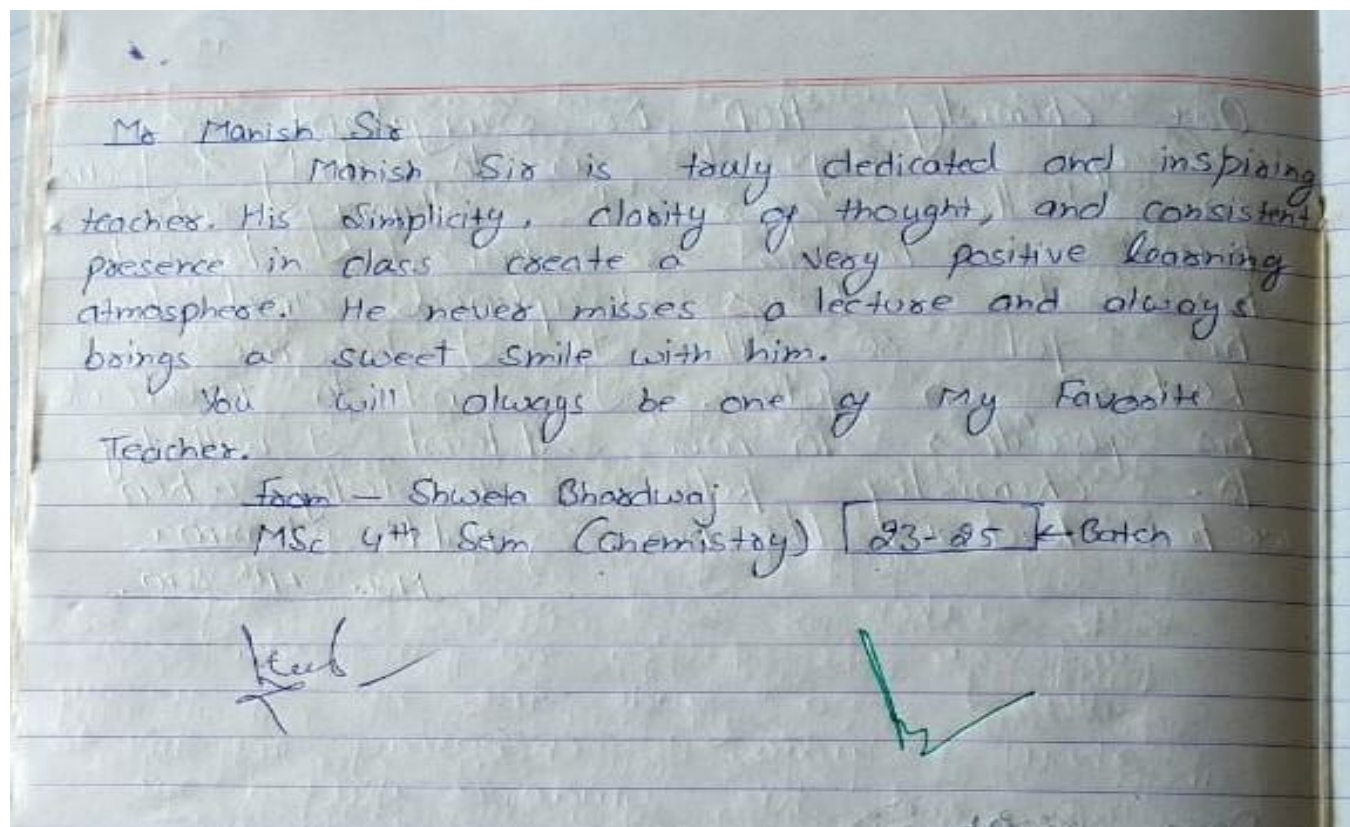

B.S.C 3rd Year.

My chemistry teacher has played a significant role in encouraging and shaping my future. With his clear explanations, patient guidance, & constant motivation, he made even the most difficult concepts easy to understand & enjoyable to learn. His passion for the subject inspired me to take a deeper interest in science and believe in my own abilities. He always encouraged me to ask questions, think critically, and never give up, no matter how tough the topic or the situation. His support has not only improved my academic performance but has also built my confidence to pursue my goals fearlessly. I am truly grateful for his valuable role in my journey toward a bright future.

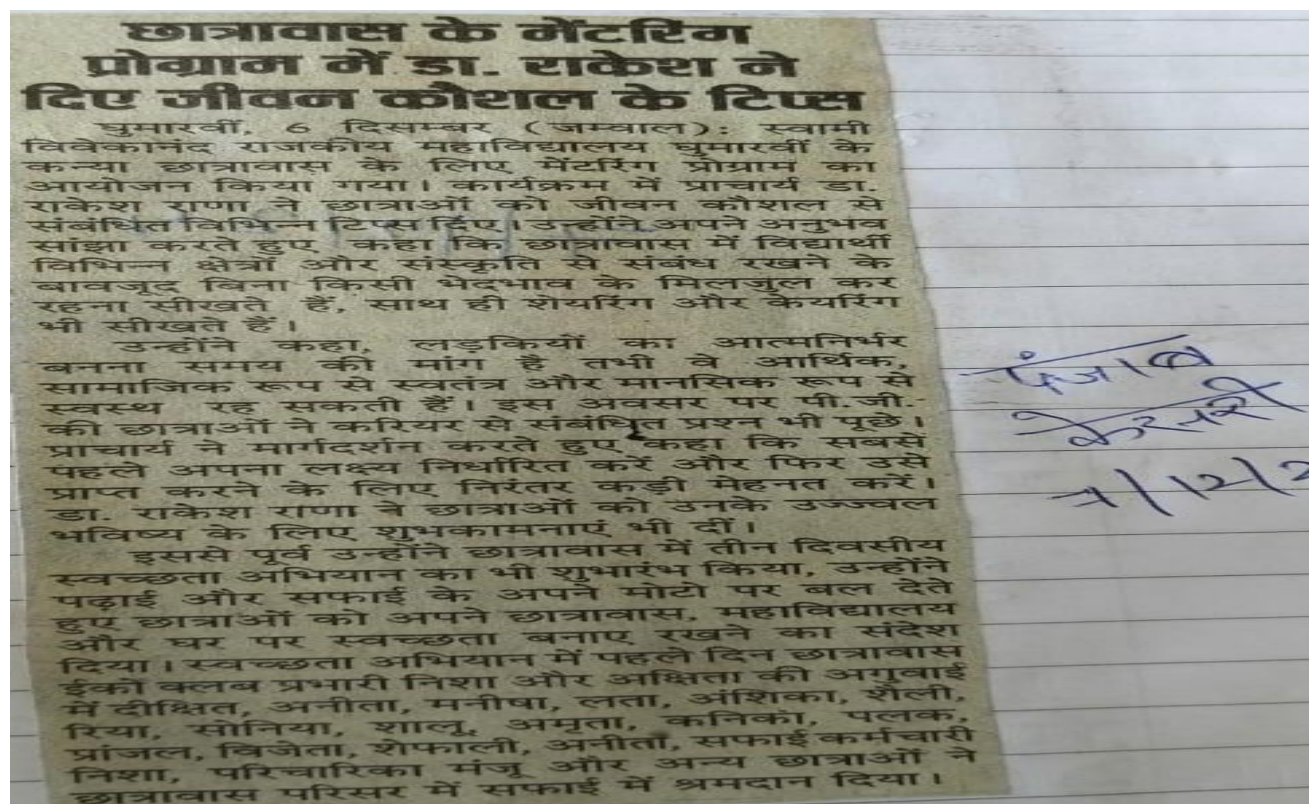

Nitish Kumar

B.S.C 3rd Year.
